PROFESSIONAL PROFILE

Computer Science graduate with a strong foundation in software development, information systems, databases, and technology solutions. Experienced in developing and working with software applications, APIs, and backend systems, with practical knowledge of programming, database management, system design, and problem-solving. Currently working as a Backend Developer at Infinity Pay, with a background in software development and academic training from the Institute of Accountancy Arusha (IAA). Passionate about using technology to solve real-world problems, learning emerging technologies, and contributing to innovative and impactful projects. Seeking opportunities to apply and further develop technical, analytical, and problem-solving skills across the broader field of Computer Science and Information Technology.

EDUCATION BACKGROUND

- BSc in Computer Science: Institute of Accountancy Arusha (IAA), Arusha, Tanzania(2023– 2026).
- High School: Lupalilo Secondary School,Njombe,Tanzania(2021-2023)
- Ordinary School: Manyunyu Secondary School(2017-2020)
- Primary School: SabaSaba Primary School(2009-2016)

PROFESSION EXPERIENCE

Backend Developer — 2025 – Present

Infinity Pay

- Writing the code that handles requests, applies business rules, and processes data e.g., validating a payment, calculating a fee, or authenticating a user before returning a response.
- Building the interfaces (REST, FAST api) that let the frontend, mobile apps, or other services communicate with the backend , defining endpoints, request/response formats, and handling authentication/authorization for those calls.
- ensuring data is stored, retrieved, and updated correctly and efficiently , plus handling relationships, transactions, and data integrity.

Technical Support Assistant— 2024 – 2025

Institute of Accountancy Arusha (IAA)

- Troubleshooting and resolving hardware and software issues on laboratory computers.
- Installed, updated, and maintained software applications and operating systems.
- Provided technical support to students and staff and assisted with computer laboratory setup and maintenance.

PROFESSIONAL SKILLS

Programming: Python, Java, PHP, JavaScript, Dart

Web & Backend Development: Django, Django REST Framework, REST APIs, Node.js

Databases: PostgreSQL, MySQL, SQLite

Software Development: Object-Oriented Programming, System Design, API Development, Debugging & Troubleshooting

Tools & Technologies: Git, GitHub, VS Code, Postman, Linux

Frontend & Mobile: React, HTML, CSS, Flutter

IT Support: Software Installation, Windows Configuration, Computer Maintenance, Technical Troubleshooting

Professional Skills: Problem-Solving, Analytical Thinking, Teamwork, Communication, Adaptability, Continuous Learning

WORKSHOPS/EVENTS/TRAININGS /HACKATHON ATTENDED

Girls in ICT – Participant

Tanzania | 2025

- Participated in discussions and activities focused on encouraging girls and women to pursue careers in Information and Communication Technology (ICT).
- Engaged with other technology enthusiasts and gained insights into opportunities and career development in the ICT sector.

Cursor Event – Participant

Tanzania | 2026

- Participated in a technology-focused event exploring modern software development and AI-assisted coding tools.
- Gained practical exposure to emerging tools and approaches for improving software development workflows.

Cyber Hackathon 2026 – Participant

Tanzania | 2026

- Participated in a cybersecurity-focused hackathon involving problem-solving, collaboration, and technology-based challenges.
- Strengthened practical skills in cybersecurity, teamwork, and innovative solution development.

Women in AI Breakfast – Participant

Tanzania | 2026

- Participated in discussions on Artificial Intelligence, technology, and opportunities for women in the AI ecosystem.
- Connected with technology professionals and fellow participants to exchange knowledge and career insights.

Django Girls – Participant

Tanzania | 2024

- Participated in a hands-on workshop focused on web development using Django and Python.
- Strengthened practical knowledge of web application development through guided learning and collaboration.

PROJECTS

- **TeenTalks Platform** – Developed a web platform using Django to support communication and engagement among teenagers, with backend functionality and database management.
- **MarketHub** – Smart Student Marketplace – Developed a marketplace platform that enables students to showcase, buy, and sell products, using React, Django REST Framework, and PostgreSQL.
- **Secure Auth Core** – Developed a reusable authentication and authorization system using Django REST Framework, featuring JWT authentication and role-based access control.
